

Prakhar Saxena

Gurugram, India | saxena.prakhar17@gmail.com | +91 920-502-3683 | [linkedin.com/in/sxnaprkh](https://www.linkedin.com/in/sxnaprkh)

Front-end Developer with 4+ years of experience in building robust, high-performance, scalable and responsive web applications while adhering to Agile methodologies. Combines technical skills with a keen eye for design to enhance user experiences across various platforms.

EXPERIENCE

Classic Informatics

Feb 2021 – Present

Software Engineer

Gurugram, India

- Led the development of a mobile Single Page Application (SPA) using TypeScript, React.js, Redux, and Chakra UI for a leading B2B and B2E travel agency based in Mumbai.
- Converted SPA into a Progressive Web Application (PWA) and published it on the App Store and Play Store, generating Rs 1.5 Crore in revenue within the first quarter.
- Mentored a team of 4 developers through code reviews, testing, debugging, and knowledge transfer sessions, enhancing overall code quality by 30%.
- Implemented performance optimization techniques such as code splitting, lazy loading, and eliminating redundant libraries, boosting app performance and reducing page load time by 25%.
- Improved client satisfaction through dedicated engagement and high-quality project delivery, leading to the Star Performer award at the end of the year.

Freelance

July 2020 – Feb 2021

Front-end Developer

Remote

- Built two MVPs using JavaScript, React.js, Redux and Material UI for an Australian manufacturing client: one to monitor steel orders, inventory, and shortages, and another to inspect their assets.
- Designed user roles for stakeholders, such as admin, supply chain managers, planning managers, inspectors, and viewers, ensuring appropriate access and functionality based on role for both MVPs.

Trancis

Jun 2019 – July 2019

Software Developer Intern

Gurugram, India

- Developed the front-end using JavaScript, React.js, and Sass while adhering to Agile methodologies for a US-based client that facilitates connections between small businesses and freelancers.
- Improved the website's SEO score from 56 to 98 by implementing best industry practices, resulting in a 40% increase in organic leads.
- Collaborated with the design team to convert Figma UI / UX design wireframes into fully interactive and responsive prototypes, significantly enhancing user experience and increasing user engagement.

EDUCATION

Jaypee Institute of Information Technology

July 2016 – July 2020

B.Tech / Bachelor of Engineering – Electronics and Communications

Noida, India
